PROFILE

Full-Stack Developer at KERAVONOS GmbH – full-time since 10/2025, before that 2.5 years as a working student on the same team. Focus: Python/FastAPI, Vue 3/TypeScript, Java/Spring Boot and LLM integration (OpenAI, Claude, Gemini). Extensive agentic coding with Claude Code, backed by code review and automated tests. Open to remote roles and positions in Munich.

EXPERIENCE

10/2025 – present

Software Developer (full-time)

KERAVONOS GmbH · Gummersbach

- Web applications and AI platforms with Vue 3, FastAPI and PostgreSQL
- Pronto: AI detection of buying signals and personalised sales texts (OpenAI API)
- Further development of the company's internal real-time chat
- Client projects for ABUS Kransysteme GmbH

Experience with: Vue 3 · FastAPI · TypeScript · PostgreSQL · OpenAI API · Docker

06/2023 – 09/2025

Working Student, Software Development

KERAVONOS GmbH · Gummersbach

- Internal real-time chat with WebSockets, Google OAuth, channels and direct messages
- Building Pronto: aggregation of public data sources, scraping with Playwright
- Contributions to rentgate (rental and booking software)
- Internal web apps for industrial processes at ABUS Kransysteme GmbH

Experience with: Vue 3 · FastAPI · WebSockets · OAuth 2.0 · TypeScript · MariaDB

03/2023 – 05/2023
